

Jithin Reji

Web Developer
App Developer
UI/UX designer

I specialize in building responsive and secure websites using Next.js and NestJS, focusing on innovative UIs and robust API security. With a strong background in UI/UX design, I've designed diverse websites for various applications. Additionally, I develop apps primarily using .NET MAUI and have experience with React Native. As a collaborative team player, I thrive in group settings, contributing to the creation of reliable and efficient solutions.
